

## **Release Notes for DrayTek VigorSwitch G2542x (UK/Ireland)**

Firmware Version	3.10.4 (Formal Release)
Release Type	<b>Regular</b> – Upgrade recommended when convenient
Build Date	26 <sup>th</sup> March 2026
Release Date	27 <sup>th</sup> April 2026
Build Revision	e7f23f3
Applicable Models	VigorSwitch G2542x
Locale	UK & Ireland Only

### **New Features**

(none)

### **Improvements**

1. Improved the compatibility with APTEK DAC cables
2. Upgraded the SDK Patch to improve the stability of GPIO pin determination
3. Corrected a syslog format issue that prevented VigorACS from collecting logs correctly
4. Corrected an issue where the "Upgrade Firmware" screen would hang even after a successful update
5. Corrected a display issue where "Ingress Trust Mode" in QoS Global Setting did not show the correct status
6. Corrected an issue with an abnormal Port Tagged VLAN setting when configuring Port Profiles via SWM (switch management)
7. Corrected an issue where the management IP might reset to default (192.168.1.224) if the hostname contained spaces
8. Corrected an issue where the Log Level would reset to "All" when only a single parameter was selected in System Log Settings
9. Corrected an issue where consecutive tests of the fan test within 5 seconds resulted in inaccurately low RPM readings
10. Corrected an issue where the Dashboard failed to retrieve data and settings could not be saved after the switch was deleted from SWM and rebooted

### **Notes**

1. This version (V3.10.3) follows the previous v2.10.2 release. The version numbering has been adjusted to the 3.x.x branch to better reflect the product's advanced feature set and software evolution
2. Starting from this version, STP (Spanning Tree Protocol) is enabled by default. This may result in a slightly longer link-up time for ports

Firmware Version	2.10.2 (Formal Release)
Release Type	<b>Regular</b> – Upgrade recommended when convenient
Build Date	16 <sup>th</sup> September 2025
Release Date	5 <sup>th</sup> January 2026
Build Revision	86bfc6d
Applicable Models	VigorSwitch G2542x
Locale	UK & Ireland Only

### **New Features**

(none)

### **Improvements**

1. Improvements to the stacking feature
2. Stacking mode can also support LAG ports in Static MAC, VLAN, GVRP, Multicast, STP, QoS, ONVIF Surveillance, IP Source Guard, Port Security, Dynamic ARP Inspection, DHCP Snooping, IP Conflict Prevention, Loop Protection, and Port Recovery

### **Notes**

1. Due to support for Physical Stacking, for consistency in firmware naming the firmware version has been changed to start from V2.10.2

Firmware Version	3.9.8 (Formal Release)
Release Type	<b>Initial Release</b>
Build Date	1 <sup>st</sup> July 2025
Release Date	14 <sup>th</sup> October 2025
Build Revision	6aece45
Loader Version	3.5.4
Applicable Models	VigorSwitch G2542x
Locale	UK & Ireland Only
