

Release Notes for DrayTek VigorSwitch PQ1070x (UK/Ireland)

Firmware Version	1.58.1 (Formal Release)
Release Type	Regular – Upgrade recommended when convenient
Build Date	17 th December 2025
Release Date	19 th February 2026
Build Revision	9934a97
Applicable Models	VigorSwitch PQ1070x
Locale	UK & Ireland Only

New Features

1. Support for 802.1Q VLAN
2. Support for MyVigor to obtain related services
3. Router-based Central Switch Management compatibility added for certain Vigor routers

Improvements

1. A CPU overload was caused by multicast streaming packets
2. The NTP packets could not be send without a DNS server IP address
3. Compatibility improvements with the SFP module DrayTek ES-T2-RJ45 (10/100/1000M)
4. Fix an issue with a configuration error related to the 10G SFP port number in [Advanced] > [Port Mirror]
5. Changing the STP status (enable/disable) could cause issues with the change of edge port, and some system stability
